Student Housing Development Capabilities

About Gilbane

Gilbane, Inc.

Gilbane, Inc. is one of the largest privately held, family-owned construction and real estate development firms in the industry. As the parent company of both Gilbane Development Company and Gilbane Building Company, we strive to bring our core values, expertise and integrated client-focused team approach to each of our projects throughout North America and internationally, operating out of more than 45 office locations worldwide.

Unlike external shareholder pressure that many of our publicly-owned competitors face, we are one of the few remaining privately held U.S. headquartered firms with solid financial footing and long-term stable management.

Founded in
1870 over 150 years of
family-owned values

Over
75% of our work is
from repeat clients

Family owned and
6 operated for
generations

Gilbane Development Company

Gilbane Development Company is the real estate development, investment, and property management arm of Gilbane, Inc. Gilbane Development has developed a wide range of real estate projects across multiple markets throughout the United States. We utilize our experience in finance, project management, alternative transaction structures, marketing, and project delivery structures to develop award-winning projects and communities. Completed projects incorporate every aspect of real estate including: multifamily (affordable, mixed-income, student housing, market rate), residential communities, mixed-used developments, garage/parking areas, corporate headquarters, healthcare facilities, operational | data | distribution centers, R&D | manufacturing facilities, and many types of facilities delivered through public-private partnerships.

25,000+ residential units
developed/underway

8.5+ billion in total development

Gilbane Building Company

Gilbane Building Company is a global, comprehensive construction and facilities-related solutions firm. Building upon the success and proven track record of more than 150 years of experience, Gilbane is recognized as an industry leader that delivers innovative building solutions – from state-of-the-art sustainable buildings to the latest applications in construction methods and technology. Operating 45+ offices worldwide, our 3,100+ multidisciplinary professionals are capable of executing multiple, geographically dispersed projects, performing over 500 concurrent projects – each adhering to Gilbane's commitment to safety and quality with a determined effort to exceed our clients' expectations.

Gilbane Development Company Portfolio

Our multi-disciplinary team of experts has successfully executed and delivered a wide range of real estate projects—on budget and on time—while creating the greatest possible value for the investment.

We've been creating and implementing successful real estate programs for public, private and non-profit clients throughout the United States for five decades. Our experienced team members and extensive track record allow us to identify, recommend and execute the most appropriate financing, development and management solutions to meet your unique objectives.

Our experience covers a wide range of projects, including:

- › Student housing
- › Innovative public-private partnerships (P3s)
- › Mixed-Income and affordable housing
- › Award-winning residential and multifamily communities
- › Corporate headquarters and office buildings
- › Thriving mixed-use developments
- › Distribution and manufacturing centers
- › Schools, healthcare and other public facilities

The Next Level of Student Housing

Gilbane Development Company, through its trademarked “Next Level of Student Housing,” has successfully delivered or has currently in development over 20,000 beds of student housing.

This approach to delivering an integrated University living experience and providing a greater sense of community evolved out of our broad experience in developing a wide variety of residential projects. We took those “lessons learned” in cost effective project delivery, creative financing and innovative transaction structures and delivering “what the student wanted and most valued” to develop The Next Level of Student Housing®.

“When Gilbane approached us with this tight deadline, they didn’t just drop the decision in our lap and say, ‘trust us’. They sat at the table with us to design and define a project that we could be comfortable with. Otherwise, we would never have been able to make such a major decision.”

- FRAN GAST, FORMER ASSOCIATE VICE PRESIDENT FACILITIES AND PLANNING, RHODE ISLAND SCHOOL OF DESIGN

- › *Convenient ground-floor retail*
- › *Community art to engage and inspire residents*

Live Work Play

For over 50 years, Gilbane Development Company has been responsible for developing dynamic communities that enrich people's lives.

As we look ahead, we are focused on building an even better future alongside our partners, investors, employees and those who live, work, and play in the communities we develop.

We understands the importance of healthy communities. When developing new student housing communities, we consider the proximity and walkability to campus; we have developed several communities which boast a Walk Score® of 90 or above ("Walker's Paradise"), including The York and Altus at Towson Row in Towson, MD; The Verge in Cincinnati, OH; 30 East in Chicago, IL; and, Octave in Champaign, IL.

To encourage health and wellness while protecting the environment, Gilbane also incorporates bicycle storage and car charging stations at our communities.

Many of our communities incorporate wellness amenities including fitness centers, yoga studios and outdoor play space.

Sustainable Development & Operational Practices

Gilbane Development Company has a long history of commitment to environmental responsibility. We employ green practices in the earliest stages of design for cost savings throughout operations. Our goal is to not only create beautiful and functional places to live, work, and play, but to also leave the community better for future generations.

We are developing dynamic communities which actively embrace sustainable methods of design, construction, and long-term operations, not only for the obvious benefits to the environment, but also for the realization of greater value over the operational lifecycle of our portfolio of assets and for our clients' assets.

When determining the best approach to sustainability, we advocate for programs that promote health and wellness and reduce energy, water consumption, and overall carbon footprint while promoting resilient operations.

Affiliations include LEED (Leadership in Energy and Environmental Design), Green Globes, Passive House Institute US, Urban Land Institute, ENERGY STAR, and National Green Building Standard (NGBS), among others.
